The authors have retracted their article [1] because a number of the panels in Figs. 6 and 7 overlap with panels in figures in previously published articles [2, 3], specifically:

- Figure 6 Liver control [1] appears identical to Fig. 10 liver control [2]
- Figure 6 Lung PEG-NPs [1] appears identical to Fig. 10 lung PEG-CF [2]
- Figure 6 Spleen control [1] appears identical to Fig. 10 spleen control [2]
- Figure 6 Spleen treatment [1] appears identical to Fig. 10 spleen treatment [2]
- Figure 7A [1] appears to be identical but in a different order to Fig. 6A all panels [3]
- Figure 7B [1] appears identical to Fig. 6B [3]
- Figure 7D [1] appears identical to Fig. 6D [3] using a different scale
- Figure 7C [1] appears identical to Fig. 6E [3] using a different scale

All authors agree with this retraction.
